The Wedding & Event DJ

DJ Putney started his career as DJ at the Youth Center Muttentz when he was 14 years old. The club scene (Aha!, Musikpark A2, Disco on Ice, etc.) where he was working after that, made it clear to him, that he wants to work as a DJ on a professional level. A few years ago the Event-DJ started to play songs at weddings. Since then, the man from Basel-Country has proved his talent impressively at over a hundred large and small wedding celebrations.

The art to be successful at a wedding is, that it depends on the right music and suitably combination. Therefore, a meeting with the bridal couple is essential. Out of a repertoire of a few thousand titles, the matching songs are picked out. Performers, the couple don't like, will not be played and No Go-Songs are - no Go's!

That the volume during the banquet becomes background, is natural for the disc jockey of Basel and area.

You can benefit from a wide range of services

when you book DJ Putney for a wedding.

Quality management is important at a wedding, professional services targeted for the bridal pair is also included.

In addition to Weddings and club appearances, DJ Putney also works at numerous corporate events every year. Abroad (Majorca, Ibiza, Nice, Dubai) he has a growing fan base.

Cordially!

DJ Putney

Marco Studer

More info at:

www.swissweddingdj.ch
(German)

▶ About 25'000 Songs are available. And of course all of your personal hits! We don't offer marching music, Swiss folklore, popular pop.

▶ We are DJs – we don't tell jokes or sing at your evening – we are in a good mood anyways and humorous people.

«Thank you from the bottom of our hearts»

We have been to several weddings and events and have therefore seen/heard many different dj's. From the moment we walked into our reception, your presence was incredible. Your timing, the attention to details and professionalism were very impressive. You were absolutely fantastic that night – your fine-tuned talent allowed you to pick up on our guests' preferences and you therefore kept the dance floor full with moving feet and lots of laughter from both our Canadian and Swiss guests. Your talent really shined in your ability to please two different cultures and keep a large crowd entertained for hours. You had a large roll to play in the success of our wedding, and for that we would like to thank you from the bottom of our hearts. We would without a doubt recommend you further and we hope that we have the pleasure to see you perform some time again soon. Many thanks!

We were very pleased with DJ Putney as our wedding DJ. He was very reliable and listened to our wishes regarding music styles and created a good atmosphere during the different stages of the evening. He brought together our very international crowd of guests and made for a

very fun evening! He was also able to provide the sound equipment needed for the wedding ceremony.
